

DELIVERING *EXCELLENCE* IN INNOVATION, TECHNOLOGY AND SUPPORT

eClinicalWorks® is a privately held leader in the ambulatory clinical systems market. The company's comprehensive electronic health record (EHR) includes electronic medical records (EMR), practice management, Patient Portal, eClinicalMobile®, eClinicalMessenger®, Electronic Health eXchange (eEHX®), and Business Intelligence reporting. eClinicalWorks partners with large medical groups such as Hospital Corporation of America (HCA), community projects, including the Massachusetts eHealth Collaborative (MAeHC) and the New York Department of Health and Mental Hygiene — which includes the Riker's Island Prison Complex, as well as hospitals, small and medium practitioners, and correctional health agencies. eClinicalWorks is the EMR vendor of choice for Correctional Health Services (CMS) and California Forensic Medical Group (CFMG), delivering state-of-the-art healthcare technology to local, county, and state correctional facilities nationwide.

eClinicalWorks enjoys high profitability with a five-year compounded growth rate of more than 100 percent year-to-year. With an established customer base of more than 50,000 providers and 225,000 healthcare professionals across all 50 states, eClinicalWorks has been awarded multiple top industry honors including being named to the Inc. 5000 in 2009, 2008 and 2007. Based in Westborough, Mass., eClinicalWorks has additional offices in New York, NY, Alpharetta, GA, and Pleasanton, CA.

The eClinicalWorks Difference

- Smooth intake and workflow
- Extended patient demographics (multiple alias names, suicide watch, housing unit)
- Robust patient search features
- Highly configurable at the practice and user level
- 24 x 7 x 365 support at no additional cost
- Reduction in data entry | Reduction in errors
- Enhanced analytics | Improved outcomes

Technology

- Flexible, scalable, reliable
- Minimal hardware and infrastructure investment
- Sustainable ownership
- Interoperability enables effective operations and communication
- Remote connectivity throughout the facility and enterprise
- eEHX allows for the secure sharing of clinical data between providers

Clinical Benefits

- Real-time clinical decision support tools
- Evidence-based guidelines
- Adverse drug event and allergy interaction checking at the point of prescribing
- Comprehensive management of chronic conditions
- Powerful reporting on quality measures and patient population statistics
- Inter-connectivity with labs, ancillary service providers, pharmacies, and community-based providers
- Tightly interfaced Dental EMR with eCW scheduling, prescribing, and allergy/interaction checking

An EMR Designed For Correctional Health Services

- Extensive security features and settings
- Patient demographics and special needs (heat sensitivity, etc.)
- Segregated housing management
- Integration capability with offender management systems for smooth patient intake
- CHS-specific patient chart review features
- Detox monitoring and tools
- Behavioral/Mental Health tools
- Sick Call workflow management
- Patient Housing
- Infirmery management
- Electronic Medication Administration Record (eMAR)
- Medication Classification and Authorization
- Discharge Planning and Management
- Patient Disposition
- CHS-Specific Triggers/Settings
- CHS-Specific Reporting
- Smart Forms and Specialty Forms
