Speech-enable eClinicalWorks for *Faster*, More Efficient and Profitable Clinical Documentation

Dragon® Medical Practice Edition:

The Right Solution for Practices with Up to 24 Physicians

CHALLENGE:
How can clinicians spend less time typing or clicking inside eClinicalWorks?

SOLUTION:
By using Dragon® Medical Practice Edition, clinicians—including physicians, nurses, nurse practitioners, physician assistants, therapists, and other care providers—can efficiently navigate and dictate medical decision-making and treatment plans directly into a patient's electronic record. It is designed and priced especially for smaller practices, to help clinicians accelerate adoption of eClinicalWorks.

Using Dragon Medical Practice Edition ensures clinicians document care more completely and 'in their own words.' Clinicians also save additional time by using customized macros to enter frequently dictated text with a single voice command. Overall, Dragon Medical solutions dramatically reduce the time clinicians spend documenting care by 30 minutes or more a day, according to a number of studies.

Available only for practices of 24 physicians or less, Dragon Medical Practice Edition is 99% accurate 'out of the box' and includes a complete range of medical vocabularies.

Dragon Medical Practice Edition lets clinicians use a narrative format to dictate the elements of a patient encounter, as well as other note fields including the History of Present Illness, Review of Systems, Physical Examination, and Assessment and Plan. Dragon Medical Practice Edition supports HIPAA patient confidentiality guidelines — a critical requirement for any practice concerned with patient confidentiality.

Dragon Medical Practice Edition runs on a variety of hardware, from netbooks to high-powered desktops. The software automatically detects hardware resources and sets up the recommended configuration. Its state-of-the-art technology takes advantage of advances in hardware and runs in multiple threads automatically when multi-core hardware is detected, to achieve better recognition performance.

KEY BENEFITS

- Dictate *faster* and more accurately than ever before
- Dictate *anywhere* in eClinicalWorks and accelerate adoption
- Dramatically *reduce* transcription costs
- *Save* clinicians 30 minutes or more a day
- Spend *more* time with patients
- Dictate in clinician's *own* words
- Support *higher* level of reimbursement

NUANCE

> **"** I use the EHR for a lot of point-and-click, but for the subjective information, as well as my conclusions and impressions, that's where Dragon Medical [Practice Edition] shines... I would never go back to life pre-Dragon Medical. **"**

Abington, Pennsylvania
eCW User since 2007

DRAGON MEDICAL PRACTICE EDITION MAKES CLINICIANS MORE EFFICIENT

Dragon Medical Practice Edition lets clinicians dictate faster and more accurately than ever before. Dragon Medical Practice Edition is 15% more accurate before enrollment than the previous version—meaning that clinicians will save time when documenting care in eClinicalWorks.

WITH DRAGON MEDICAL PRACTICE EDITION, PRACTICES CAN DELIVER HIGHER QUALITY CARE

Clinicians receive a host of key advantages with Dragon Medical Practice Edition compared with previous versions:

- **Spend more time with patients**
  Increased accuracy means fewer errors to correct, which lets clinicians spend more time with patients, improving both quality of care and patient satisfaction.
- **Dictate in their own words**
  Dragon Medical's free-text dictation capability supports the 'medical decision-making' aspects of the note, which gives referring physicians and ancillary providers a clearer and more detailed patient assessment and prognosis.

- **Secure patient information**
  Dragon Medical Practice Edition supports HIPAA compliance guidelines to protect patient security and confidentiality.
- **Improve physician satisfaction**
  Physicians who use Dragon Medical Practice Edition report that it significantly improves their enjoyment of practicing medicine.
  Dragon Medical Practice Edition helps them use their time more effectively and get home in time for dinner, thus improving physician quality of life.

DRAGON MEDICAL PRACTICE EDITION YIELDS COST SAVINGS AND PROFITABILITY

Clinicians enjoy significant cost reductions and productivity boosts when they move from typing, handwriting, or transcription—or when they upgrade to Dragon Medical Practice Edition from previous medical versions or non-medical solutions:

- **Reduce the cost of documentation**
  Eliminate transcription by speech-enabling the eClinicalWorks system, freeing up resources to focus more on patients, to help increase practice efficiency. Practices that are using Dragon Medical Practice Edition today are significantly lowering their transcription costs in some cases by hundreds of thousands of dollars annually.

- **Increase practice volume**
  Faster, more accurate response reduces time spent on documentation, allowing clinicians to see more patients and increase practice revenue and profitability.

DRAGON MEDICAL: A LEADING SOLUTION FOR PRACTICING CLINICIANS

The Dragon Medical solutions family is the leading speech recognition solution in healthcare today. Dragon Medical technology has been chosen by more than 180,000 physicians worldwide to document clinical records and dictate correspondence, making it the most widely used speech recognition solution for physicians.

Even rarely used medical terms appear in Dragon Medical Practice Edition the first time clinicians say them. Clinicians don't need to add or train words with Dragon Medical Practice Edition. Whether the clinician's country of origin is India, China, Pakistan, England, the U.S., or Australia, Dragon Medical Practice Edition recognizes his or her speech patterns because it has heard them before.

KEY FEATURES

- More accurate than ever
- 15% more accurate than Dragon Medical 10
- Recognition Speed
- Dragon Medical Practice Edition improves recognition response time significantly
- EHR Support
- Navigate and dictate inside eCW software: History of Present Illness, Review of Symptoms, and Assessment and Plan
- Medical Vocabularies
- Covers nearly 60 specialties and subspecialties
- Regional Accent Support
- Accented speakers get higher 'out-of-the-box' recognition with advanced adaptation techniques and accent-specific acoustic models
- Hidden Mode
- Dictate anywhere in eCW, eliminating navigation between eCW windows and the Notes window
- Dragon Medical Template Library includes library of macros for standard notes and 'medical normals' by body system
- Smart Configuration
- Automatically detects hardware resources. Its state-of-the-art technology takes advantage of advances in hardware and runs in multiple threads automatically when multi-core hardware is detected, to achieve better recognition performance.
- Auto-detection of hardware resources
- Recognition Analytics
- Automatically detects poor audio input and alerts the user, offering advice to remedy the situation and improve accuracy
